I'm a passionate Front-End Web Developer who loves building beautiful and responsive web applications. I specialize in turning design ideas into reality using clean, efficient, and scalable code. With expertise in HTML, CSS (Tailwind), JavaScript (TypeScript), and frameworks like React and Next.js, I bring designs to life and ensure seamless user interactions. Adept at translating UI/UX design wireframes into high-quality code and delivering seamless user experiences across platforms and devices. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. I'm constantly learning and exploring new technologies to stay at the forefront of this rapidly evolving field.

Experience

Frontend Developer 2025
Tech Innovations Inc, Lagos, Nigeria.
Accomplishments

- Redesigned and modernized the company's flagship SaaS platform UI using React and Tailwind CSS, resulting in a 25% increase in user engagement and improved customer satisfaction scores.
- Improved application performance by implementing advanced front-end optimization techniques (lazy loading, code splitting, and minification), reducing page load times by over 50%.
- Developed and maintained a reusable component library in collaboration with the design team, ensuring consistency across all internal and customer-facing applications.
- Introduced automated front-end testing with Jest and Cypress, increasing code reliability and reducing regression issues in production by 30%.
- Actively participated in Agile/Scrum workflows, contributing to sprint planning, retrospectives, and peer code reviews, fostering a culture of continuous improvement.

Frontend Developer 2024 - 2025
Tech Startups Ltd, Lagos, Nigeria.
Accomplishments

- Optimized page load time by 45% by implementing lazy loading, code splitting, and image optimization techniques, improving user experience and SEO performance
- Collaborated with UI/UX designers to implement pixel-perfect, accessible designs compliant with WCAG 2.1, enhancing usability for all users.
- Integrated RESTful APIs and GraphQL into front-end applications, improving data retrieval efficiency and scalability.
- Conducted regular testing and quality assurance to ensure optimal performance and cross-browser compatibility
- Played a key role in Agile teams, participating in sprint planning, code reviews, and product demos to ensure timely and high-quality releases.
- Assisted the development team in various front-end tasks and projects.

Educational Summary

Aunty-Lyn Christian Group of School, Lagos. 2016
Senior Secondary School Certificate
